Name: Adam Metz

Community (UN SD goal): Youth Learners/Gamers learning about Climate Change: SDG 13 - Climate Action, SDG 7 -

Affordable and Clean Energy, SDG 12 - Responsible Consumption and Production

MVP # MVP 2 Complete

Sprint cycle dates: Nov 15th - Dec 5th

Project Name	Sustainify
Blurb	SDG 13 - Climate Action SDG 7 - Affordable and Clean Energy SDG 12 - Responsible Consumption and Production Cookie-Clicker game that focuses on educating players on climate change related topics
For Week Ending	December 8th
Project Status	Green
Status Description	Overall I'm quite happy with all that I got done for this project, and I think as a proof of concept it's solid. I had a little more I would've liked to get done such as hosting the game, and game save functionality, but I'm still happy with where the project is at.

## Activities—During the past sprint cycle

- New Assets
  - Solar Panel
  - Upgrade Button (Normal State, Disabled State, and Pressed Down State)
- Add a background interaction with players purchased generators, so that they show up in the background (i.e. When the player buys a solar panel, it shows up in the landscape)
- Add educational popup functionality
  - Popups have a title, blurb of information, and link to source of information
- Completion of Upgrade Panel UI
- Add recurring popups that the player can choose to engage with
- Add educational information respective to each of the generators in the game (Wind Turbines, Solar Panels, and Reforestation)

### **Project Issues**

None

#### **Project Changes**

As mentioned in the last scrum progress report, I didn't think I'd get to MVP 3, and I did not.

MVP 3 Included: Hosting the game online, browser cookie usage for players to save their game progress, and ensuring the game plays well on a mobile device

#### Activities—Planned for 2 Next Weeks
